We would like to wish everyone a Safe and Happy New Year! We want to take this time to reflect on the friends that we have lost along the way and the new friends we have met. We would like to thank all of the people that have stuck by us over the years and supported our agency. If not for the support of you, our agency would not be as strong as it is today. We have grown from being 1 case manager to having 7 at this time. We appreciate all that our community has done for us and we look forward to working with the community in the future. On behalf of the staff and the board here at The West Coast AIDS Foundation, Happy New Year!!!

World AIDS Day 2017

We will be working on an event for December 1st 2017. We are looking forward to collaborating with several of our agency partners on World AIDS Day 2017. We will be working on our event to make sure that it is a success and have already started the planning process. We know that we have not been able to put on an event for World AIDS Day and we will be making sure that we do that from now on.

Thank you to everyone that has worked with us and we look forward to working with others in the future!
